Theo's mother says she hopes the actress sharing her story helps shine a spotlight on strokes in pediatric and young adult patients, because the damage to the brain caused by an interruption in blood supply is typically associated with older patients. A suffix that stinks of corruption. When it comes to taking care of your brain, a little prevention goes a long way. For individuals recovering from stroke, therapeutic interventions may be based on the presentation of symptoms and not necessarily on the location of the stroke in the brain. Ask whether an assistive technology evaluation is appropriate. Setting the example with your own advocacy efforts and confidence will help instill that same mentality in your child so that he can eventually advocate for . Our experience with Saeb Stephens has been amazing since the start! Then something magical happened, Kelsey and I learned we would be parents.
