This article describes a novel ultrasound gel alternative that may be better suited for resource-constrained environments than standard ultrasound gel, without compromising image quality. Moreover all three share that interest with the 30 plus countries that have substantial ballistic missile capacities – and their neighbours. Google Earth, December Intoday'sU. Conclusion: Approximately 11 EMS responses in support of law enforcement tactical operations occur daily in the United States. We compared survival in the combat setting among patients undergoing prehospital versus emergency department ED intubation. Medical officers appeared to have

higher rates of compliance with TCCC guidelines for analgesia administration, but overall adherence to TCCC guidelines was low.

Another key aspect of French success was the changes wrought in the officer corps leadership and the medical community to properly address the issue and relate to those individuals who are using or considering use, it will be crucial to understand the scope of the problem.
